

Create IBM Watson IOT Platform and Device

Step:1 Login To Your Cloud Account

Step:2 Dashboard

Step: 3 Resource list

The screenshot shows the IBM Cloud 'Resource list' page. The browser address bar displays 'cloud.ibm.com/resources'. The page header includes a search bar and navigation links like 'Catalog', 'Manage', and 'Raguraman M's Account'. A sidebar on the left contains icons for various resource categories. The main content area is titled 'Resource list' and features a table with columns: Name, Group, Location, Product, Status, and Tags. Below the table, there are filter boxes for each column. A list of resource categories is displayed, each with a dropdown arrow and a count in parentheses: Compute (0), Containers (0), Networking (0), Storage (0), AI / Machine Learning (0), Analytics (0), Blockchain (0), Databases (0), Developer tools (0), Logging and monitoring (0), Migration (0), and Integration (0). A 'Create resource' button is located in the top right corner.

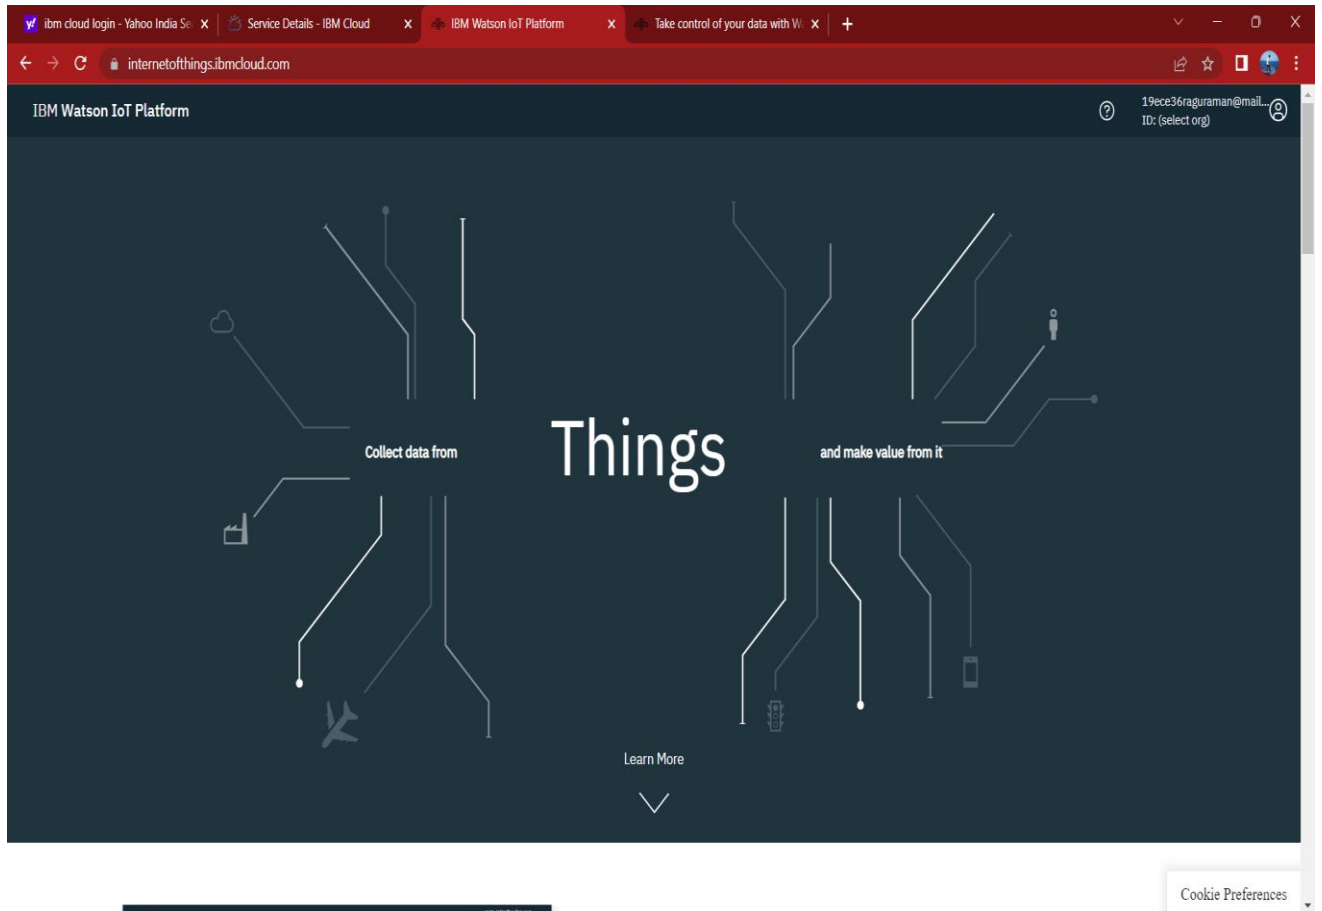

Name	Group	Location	Product	Status	Tags
Filter by name or IP address...	Filter by group or org...	Filter...	Filter...	Filter...	Filter...
Compute (0)					
Containers (0)					
Networking (0)					
Storage (0)					
AI / Machine Learning (0)					
Analytics (0)					
Blockchain (0)					
Databases (0)					
Developer tools (0)					
Logging and monitoring (0)					
Migration (0)					
Integration (0)					

Step:4 Internet Of Things Platform

The screenshot shows the IBM Cloud 'Internet of Things Platform' page. The browser address bar displays a long URL. The page header includes a search bar and navigation links like 'Catalog', 'Manage', and 'Raguraman M's Account'. The main content area is titled 'Internet of Things Platform-ps' and features a 'Launch' button. Below the launch button, there is a section titled 'Let's get started with IBM Watson IoT Platform' with a description: 'Securely connect, control, and manage devices. Quickly build IoT applications that analyze data from the physical world.' A 'Launch' button is also present in this section. Below this, there is a section titled 'Ready for the next level?' with a heading 'IBM Watson IoT Platform Journey'. This section contains three columns representing different service plans: Lite, Non-Production, and Production. Each column has a checkmark icon and a description of the plan. The 'Lite' plan is described as a lightweight development environment. The 'Non-Production' plan is described as a full-featured, fully-integrated offering. The 'Production' plan is described as a fully managed SaaS offering. A 'Launch' button is also present in this section.

Plan	Description
Lite	The Lite service plan provides a lightweight development environment to get you started with the connectivity capabilities of Watson IoT Platform.
Non-Production	The Non-Production service plan is a full-featured, fully-integrated offering that enables you to explore Watson IoT Platform to see how the service can fit into your IoT environment.
Production	The Production service is a fully managed SaaS offering that enables you to manage and analyze enterprise IoT data.

Step:5 IBM Watson IOT Platform

Step: 6 Can Create And Manage Devices
