

I am

Parent/Care  
taker

I'm trying to

To protect the child from  
harm, To track their current  
location, sound alarm  
incase of emergency

But

Don't know the exact  
solution to solve this  
problem/It is too costly  
to afford

Because

It depends on the ongoing  
technology and not well-  
versed in that/perceive  
those tech yet exorbitant

Which makes me feel

Worried  
Disconsolate
